

Stanley Wireless Wi-Q WAMS

Description:

The Stanley Wireless training is a 3-day, Indianapolis-based training program for Stanley Technicians, Dealers and End-Users who are responsible for installation, operation, and administration of a Stanley wireless (Wi-Q™ or Omnilock) access control system. The current, approved WAMS/Wi-Q software will be used, and the student will be exposed to the modules necessary to administer a Stanley wireless (Wi-Q™ or Omnilock) access control system. Hardware materials used will include Omnilock and Wi-Q™ configured hardware chassis.

Topics Covered:

- Architectural Overview
- Hardware Installation
- Wi-Q WAMS Software Installation and Configuration
- System Administration Configurations
- Alarm Monitoring
- Troubleshooting
- Database Maintenance

Who Should Attend: Stanley Security personnel, Dealers or End-Users responsible for the installation and configuration of a Stanley Wi-Q WAMS access control system.

Cost: No Charge

Location: STANLEY Security
6161 E 75th Street
Indianapolis, IN 46250

Time: 8:00 AM - 4:00PM (Eastern) (Lunch and beverages will be provided)

Class Attire: Clothing appropriate for a casual, business environment (clean jeans are welcome). No open-toe shoes as a tour of the factory will be included in the class.

For class dates and details, please email StanleySecurityLearning@sbdinc.com
